COOL TECHNOLOGIES: WORKING WITHOUT HFCs

Examples of HFC-Free Cooling Technologies in Various Industrial Sectors¹

INTERIM REPORT - 2012²

...er of plug-
... is producing a
...90. In 2007, the
... fresh food

... Multidecks, open-
...oods, soft drinks, and
... systems is one of the largest
... al refrigeration products.⁷⁰

... facilities management provider
... Refrigeration Technology
... installed the first transcritical-
... ation system for the Swiss retail-giant

... of "Rhino" brand bar refrigerators using
... Units include small mini compact bar
... door wine fridges, alfresco fridges, beer
... upright commercial display fridges.⁷²

... a manufacturer of bottle coolers and small
... rs, is in the process (2012) of developing
... ocarbon products, for an expected launch in 2013 for
... european market.⁷³

The Italian company Blupura produces the R290
FONTEMAGNA water cooler: "well insulated ice-bank for
high volume supply of cold, still and sparkling water, with a
capacity of 15 liters per hour."⁷⁴

In 2010, the company launched a new range of
hydrocarbon counter top water coolers for restaurant,
office and home use.⁷⁵
